

Dear Dr. Henney,

I am writing to express my opposition to P M
FDA's proposed new rule and guidance on
genetically engineered (GE) foods. We oppose
the agency's voluntary labeling and
notification proposals in support of all 2001
points in the citizen's petition currently
before the agency (docket #00P-1211/CP1).

- ☒ All GE foods should be labeled so I am
informed and have a choice. 937
☒ GE foods should not be assumed to be
"generally recognized as safe" and should
have mandatory pre-market safety testing
☒ There should be a moratorium on GE foods
until long-term studies show they are safe for
human health and the environment.

(Additional Personal Comments:) I have two children ages 5 & 7.

I do not want them to be the test group
for genetically engineered food - Ban or!
at least label GE foods!
